

“MSWG - TOWARDS ENHANCING CREDIBILITY & ACHIEVING SUSTAINABILITY”
HOW TO READ, ANALYSE AND INTERPRET
ANNUAL REPORT AND FINANCIAL STATEMENTS
(BASIC LEVEL)

Annual Report and Financial Statements provide the most readily available source of information on a company's activities, performance and prospects. However, they are not always easy to read, understand, analyse and interpret.

The Retail Shareholders/Investors must find the Annual Report and published accounts useful to enable them to invest wisely and smartly. Their investments may go up in smoke if they fail to understand the financial and business position of the company from year to year. They will not be able to spot undue risk-taking, let alone assess the quality of management and window dressing techniques used to disguise poor results.

This Workshop will guide the Retail Shareholders/Investors to acquire a comprehensive understanding of Annual Reports and Financial Statements. It will enable them to learn how to carefully examine these Annual Report and Financial Statements to differentiate between the well-run companies and poorly-run companies. This Workshop is aimed at making them wise and smart investors.
